

ELECTRICAL ENGINEERING DEPARTMENT

Department Vision

To make focused efforts for achieving *academic excellence* and become a front-runner, by bringing out sincere, motivated Electrical Engineering graduates with knowledge, aptitude and skills to be suitable for real world problem solving.

Department Mission

M1: Facilitate to learn fundamental and applied aspect of Electrical Engineering.

M2: Develop real world problem solving skills through *Laboratory work*, Projects and team activities.

M3: Exposure to Advance tools and recent trends to prepare them for Industry.

Program Educational Objectives (PEOs)

PEO 1:	To attain <i>technical competency</i> in a professional career with knowledge and <i>practical</i> skills.
PEO 2:	To contribute in synthesizing solutions for <i>real world problems</i> using modern tools and technologies.
PEO 3:	To attain professional excellence through learning and <i>industry</i> ready practices.

Program Specific Outcome (PSOs)

PSO 1.The graduate shall have *technical competency* with *practical* knowledge and analytical skills.

PSO 2.The graduate shall be able to develop solutions for *real world problems*.

PSO 3.The graduates become ready to work in *industry* and use professional practices.
