

Department of Civil Engineering

Department Vision

To play significant role and make focused efforts for achieving academic excellence and develop sincere, motivated Civil Engineering graduates with knowledge, aptitude and skills to be suitable for real world problem solving.

Department Mission

M1: Facilitate budding engineers to learn with passion.

M2: Provide maximum exposure to recent trends and technologies.

M3: Develop real world problem solving skills through industry-institute interactions, collaborative and team activities.

Program Educational Objectives (PEOs)

PEO 1: The Graduate shall have technical competency to excel in professional career.

PEO 2: The Graduate shall design and develop solution for real world Civil Engineering problem using the modern tool and technologies.

PEO 3: The Graduate shall have effective practical skills to build the solution and work in the team spirit and use ethical practices.

Program Specific Outcomes (PSOs)

PSO 1: Students become enabled to develop moderate level application by following software application process model and using tools.

PSO 2: Students become aware of recent software/hardware tools and technologies.

PSO 3: Students become ready to work in team and life-long learning.
